Zero grade sprit ball? Is he crazy?
It is very common,it can't even beat a goose.
What can he do, having a zero grade ball is better than 5 years ban.
Keke...originally it is his first spirit.....
The setting in<<Yu Ling Shi>>, spirit got 0 grade to 7 grade, the higher the grade the more powerful.

There is wind,fire,water,earth,gold,wood,light,dark, as well as worm and poison type
In every grade,spirit can underwent special training, and get a exclusive ability as well as battle mode

I should console him.
Getting higher grade spirit from the start, save alot of time~
